I am a software engineer with over 7 years experience leveraging **JavaScript**, PHP, C# and several other modern programming languages and technologies to build robust and scalable mobile and web based applications and enterprise scaled software. Over the years, **I have found kin interest in fullstack Javascript development** and have raised up several javascript developers who are now working as javascript developers in full time positions.

### CO-FOUNDER                                      September '19 – present
### PLAY INFOTECH LTD

I co-founded a gaming platform built entirely with **Javascript**. The app allows users to play traditional games with a multiplayer connection for competitiveness. As the senior developer, I was directly responsible for building the games as well as other mobile games for clients.

### CO-FOUNDER AND CTO                          May '15 – present
### TECHMYBRAND

I co-founded a web and mobile app development start-up in 2015.  I was a solo developer and was responsible for the development of client web and mobile projects, carrying unit testing to ensure optimum performance of such applications.

### EXPERTISE
- Full stack web application development
- Cross platform mobile app development
- Native android and IOS app development
- **API development services**
- Game development
- Enterprise scaled software development
- B2B integrations
- Windows presentation foundation (WPF)
- MacOS App development
- Team building & leadership

## OTHER EXPERIENCE
**Software developer**,                                    July, '18 – March, '19
**University of Benin, ICTU/CRPU Unit**

Designed dozens of web applications and provided continuous improvement to systems and work flows.

**Senior Software Developer,**                          March, '19 – August, '19
**Ceroxx Tech**

I served as lead developer in several projects ensuring strict adherence to best coding practices and optimal performance in terms of speed, quality of work done and user responsiveness.

## PROJECTS/ACCOMPLISHMENTS:

- Completed a full featured multi-vendor ecommerce system with buyer-seller chat from the ground-up using PHP Laravel framework
- Built a pharmacy licencing rest api for PHARMACY COUNCIL OF NIGERIA to enable pharmacists/pharmacies apply for a license as well as check their license status/premises.
- NodeJS and Express rest api.
- Built a computer based examination software using facial recognition to log students in for the exam
- Android and IOS native apps
- Designed dozens of software solutions driving continuous improvement to processes, systems, work flow and customer responsiveness
- Built windows based software using C# and WPF
- Delivered new or enhanced developments
    - Web applications for employees in Saudi Arabia to register their companies online
    - Web based donation application to automate donations for church activities by her donors / partners
    - software that automated customer income (profit + investment) for multilevel marketing companies
- Served as lead developer/team member in several projects

## TECHNOLOGY SUMMARY:
**Programming Languages:**

**JavaScript**, PHP, C#, Java, Scala, Swift, Objective C, PYTHON, Microsoft ASP.NET, Ruby

**Frameworks/Libraries:**

CodeIgniter, Laravel, **JQuery Javascript library, ReactJS, Vue JS**, **NodeJS**, **Express**, Framework7, NativeScript, Apache Cordova, React native, Electron, Flutter, Python Django, Play Framework, Ruby on Rails

**Other Technologies/Skills:**
WPF (C#), Cocoa, Windows Forms, Unity 3D, USSD Programming, .NET CORE, .NET Framework, WordPress, PaaS, HTML/CSS/SCSS, **Git**, UI/UX

**Development Tools:**
Microsoft Visual Studio, Visual Studio Code, Zend Studio, Pycharm, Prototyping Approach (Justinmind), Matlab, Python IDLE

**Systems:**
Windows, Macintosh

**Databases:**
MySQL, PostgresSQL, Sqlite3, MsSQl, MongoDB

## Voluntary Services:
**Executive Member, Google Developers Group, Benin (GDG)**

I have been an "executive" member of the GDG Benin since 2015 till date in which I have served the following purposes:

- Assist in organising google events among which are the google developers' festival Devfest, Google I/O.
- Handling some training sessions especially in the area of mobile app development and material design.

## EDUCATION:
- Bachelor of Engineering, Electrical/Electronic Engineering (2019, University of Benin, Nigeria.)
- West African Senior School Certificate. (June 2014, Corporate High School, Benin- City, Edo state.)

## CERTIFICATIONS:
- Bachelor of Engineering, Electrical/Electronic Engineering
- Mobile sites certification– Google certified
- Digital skills for Africa – Google certified
- Certififcate of completion of several Udemy Javascript courses (*Links available upon request)*

## REFRENCES:
Mr. Chijioke Mokogwu, webmaster@uniben.edu, 08185236234
